EXPERIENCE

General Assembly, Boston — *Software Engineering Immersive*

February 2020 - PRESENT

Completed a three-month (480+ hours) immersive web development program. Covered front- and back-end programming fundamentals. Created 3 projects individually and an additional project in a team setting. Utilized Git/GitHub for version control.

Dina Miller Associates, Boston — *Research Assistant*

November 2018 - February 2020

Assisted with the preparation of residential real estate appraisals by preparing relevant data, including: comparable residential property photographs, locating and tracking new real estate developments, floor plans, tax assessments.

PROJECTS

Articles - [GitHub](#) and [Deployed](#)

A web app to search through the Library of Congress's digitized newspaper archive.. Users can search with Chronicling America's API to find high resolution PDFs of various newspaper publications dating back to the 1600s.

Fishbowl! - [GitHub](#) and [Deployed](#)

Fishbowl is a family-friendly party game that combines Charades, Password and Taboo. Players are split into two teams and have their score tracked through all three rounds.

Tic-Tac-Toe - [GitHub](#) and [Deployed](#)

A single page tic-tac-toe application to play against yourself or with a friend. Built front-end game logic with JavaScript that utilizes a third party Rails API.
